Persons with disabilities who require special accommodations or assistance at the public hearings should notify Chris Molnar, Executive Secretary, Board of Parole Commissioners, 1677 Old Hot Springs Rd., Ste. A, Carson City, NV 89706, or call (775) 687-5049 or fax (775) 687-6736.

STATEMENT OF THE EMERGENCY AND THE REASONS FOR THAT DETERMINATION:

The Board of Parole Commissioners ('Board') is a quasi-judicial body that considers eligible prisoners for release on parole to the community. NRS 213.10885 requires the Board to create an objective standard to use when making decisions to grant, deny, revoke or continue parole.

During the 2007 Legislative Session, Assembly Bill 510 (AB 510) made changes to the criminal justice system that caused the parole standards that were in effect at that time to become invalid. NRS 213.10885(6) states:

6. On or before January 1 of each even-numbered year, the Board shall review comprehensively the standards adopted by the Board. The review must include a determination of whether the standards are effective in predicting the probability that a convicted person will live and remain at liberty without violating the law if parole is granted or continued. If a standard is found to be ineffective, the Board shall not use that standard in its decisions regarding parole and shall adopt revised standards as soon as practicable after the review.

The Board conducted a meeting on June 27, 2007 and suspended the use of the standards upon the implementation of AB 510 effective July 1, 2007. The Board contacted the Council of State Governments who agreed to fund the costs for a national expert on parole standards to assist the Board in implementing a new validated guideline.

Dr. James Austin was contracted to assist the Board in developing new parole standards. During Dr. Austin's prior work with the Board, a risk instrument pertaining to the recidivism of released prisoners had been validated and made part of the previous parole standards. Dr. Austin and the Board agreed to create the new standard based primarily on risk indicators determined during the previous study. The Board performed a test sample of 300 cases in September 2007. In October, the sampling of cases was reviewed and the results determined the method that was employed was valid.

Dr. Austin testified during a meeting of the Advisory Commission on the Administration of Justice about the critical need to ensure that the risk of a prisoner is properly assessed when considered for release on parole. Dr. Austin recommended to the Board that the guidelines be implemented as soon as possible to minimize the risk to public safety.

The Board requests that the Governor approve these emergency regulations so the risk assessment and parole standards may be formally used during the process of adopting permanent regulations. The Board is required by Statute to adopt revised standards as soon as practicable after a comprehensive review of standards, and believes that implementing these emergency regulations comports to the Legislative intent of NRS 213.10775(6). These regulations will immediately give the Board the authority to grant or deny parole based on an objective risk assessment which is critical to minimizing the risk to public safety.

STANDARDS FOR RELEASE ON PAROLE

1. “Board” defined. ([NRS 213.10885](#), [213.110](#), [213.140](#)) As used in this emergency regulation, unless the context otherwise requires, “Board” means the State Board of Parole Commissioners.

2. Considerations regarding granting of parole: Severity of crime. ([NRS 213.10885](#), [213.110](#), [213.140](#))

1. In determining whether to grant parole to a convicted person, the Board will consider the severity of the crime for which the conviction was had.
2. If a person has been convicted of more than one crime, the severity of the most serious crime that he is actively serving shall be applied.
3. The Department of Corrections shall apply the crime severity level to each sentence a prisoner is serving, and the Board shall rely on that determination when applying the severity to the Risk/Severity recommendation table depicted in section 4.
4. For the purposes of this section, the table in section 10 provides the list of offense severity indicators as determined by the Department of Corrections.

3. Consideration regarding granting parole: Risk to re-offend and probability of successful completion. ([NRS 213.10885](#), [213.110](#), [213.140](#)). In determining whether to grant parole to a convicted person, the Board may consider the probability that he will complete parole successfully. The Board shall consider the risk of the prisoner to commit a new felony if released on parole using an objective and validated risk assessment. The factors that may be used include:

1. The age at which the prisoner was first arrested and the prisoners current age;
2. Whether the prisoner has ever been revoked off parole or probation;
3. The employment history of the prisoner prior to arrest;
4. Whether the prisoner has ever been convicted of a property offense;
5. Whether the prisoner has a history of alcohol or drug abuse;
6. The gender of the prisoner;
7. Whether the prisoner is a member of a street or prison gang;
8. Whether the prisoner has an existing educational diploma or degree, or has completed any vocational, educational or treatment programs;
9. The disciplinary conduct of the prisoner within the past year;
10. The current custody level of the prisoner; and
11. Any other factor determined to be valid.

4. Considerations regarding other factors pertaining to a prisoner considered for parole: ([NRS 213.10885](#), [213.110](#), [213.140](#)) In determining whether to grant parole to a convicted person, the Board may consider other factors related to the prisoner to assist it in determining whether parole should be granted. The Board may consider, without limitation, the following standards:

1. The nature and severity of the current offense;

2. Any prior convictions sustained by the person, both as a juvenile and as an adult, and the nature and severity of the prior convictions;
3. Any prior criminal charges brought against the person, including any charge dismissed as the result of a plea negotiation;
4. Whether the person has been previously incarcerated;
5. Whether the prisoner has a history of repeatedly failing to complete probation or parole;
6. Whether the person committed a crime while incarcerated, on bail, on escape status, during parole or probation supervision, or the person eluded capture during or following the commission of a crime;
7. The extent of injury or loss suffered by the victim of the present offense;
8. Whether the person has engaged in repetitive criminal conduct;
9. Whether the person has engaged in disruptive institutional behavior and whether the person has recently been housed in disciplinary segregation;
10. Whether the person has participated in rehabilitative or work programs geared toward addressing behaviors that lead to incarceration;
11. Whether the nature of the criminal record of the person is increasingly more serious;
12. Whether the person has a history of mental health treatment/medication noncompliance and/or lack of insight about their mental illness that may contribute to criminal behavior;
13. Whether the crime was targeted against a child or person at greater vulnerability because of age/disability;
14. Whether the person has a history of using/possessing a weapon during the commission of a crime;
15. Any other factors that indicate whether the person may pose a threat to society or himself;
16. Whether the person has no prior or minimal prior criminal history;
17. Whether the person has recently been infraction free for the most recent two years while in custody and not due to having been housed in disciplinary segregation;
18. Whether the person has had a positive adjustment to incarceration, or to halfway house or work release program;
19. Whether the person had lesser involvement in the offense compared to any co-offenders;
20. Whether the person has successfully completed prior community based parole or probation supervision other than summary or court-based supervision;
21. Whether the person has community or family support and/or stable release plans;
22. Whether the release would mitigate risk because of a hold placed by another jurisdiction;
23. Whether the crime was situational without evidence of intent to harm based on information derived from pre-sentence records;
24. Whether the case history demonstrates remorse;
25. When applicable, whether the person consistently managed their mental illness as recommended by professionals, if the mental illness may be a contributing factor to criminal behavior; and

26. Any other factor that may indicate the person or society would benefit or otherwise would not be harmed if the person were released on parole.

5. Considerations regarding granting of parole: Recommendation for release. ([NRS 213.10885](#), [213.110](#), [213.140](#)) Giving consideration to the severity of the crime for which a person has been convicted, and the risk to re-offend based on a validated risk instrument which pertains to the recidivism of released prisoners, the Board shall consider releasing an inmate on parole based on the following table:

Offense Severity	Risk Level		
	High	Moderate	Low
Highest	Deny Parole	Consider Factors	Consider Factors
High	Deny Parole	Consider Factors	Parole at 1 st or 2 nd Hearing
Moderate	Deny Parole	Parole at 1 st or 2 nd Hearing	Parole at initial parole eligibility
Low Moderate	Consider Factors	Parole at 1 st or 2 nd Hearing	Parole at initial parole eligibility
Low	Consider Factors	Parole at initial parole eligibility	Parole at initial parole eligibility

1. The Board shall consider those factors specified in section 4 of this emergency regulation when considering the discretionary release of all eligible prisoners.
2. When the Risk/Severity recommendation indicates ‘Consider Factors,’ the Board shall consider the specific factors of the case to assist it in arriving at a decision to grant or deny parole.
3. The Board is not bound by the Risk/Severity recommendation. When the Board deviates from the Risk/Severity recommendation, it shall indicate its reasons for deviation on the Order granting or denying parole.
4. If the person is required to be certified pursuant to NRS 213.1214, the risk level shall be the higher of the validated statistical risk assessment referred to in this emergency regulation, or the risk to re-offend as a sex offender pursuant to NRS 213.1214.

6. Considerations regarding granting of parole: Requests for recomputation. ([NRS 213.10885](#), [213.110](#), [213.140](#))

1. The Board will not consider a request for recomputation based on an appeal of the crime severity level unless the Department of Corrections determines that the crime severity level was misapplied, and advises the Board of such.
2. The risk level shall be based on the static and dynamic factors applicable at the time of the parole hearing.
3. Any convicted person who believes that the Board has miscalculated the risk level may submit a request for recomputation to the Board.
4. A request submitted pursuant to the section must be sent to the Board within 45 days after its hearing of the matter. The request must be sent to: State Board of Parole Commissioners, 1677 Old Hot Springs Road, Suite A, Carson City, Nevada 89706.
5. A change in status following the hearing that may impact the risk factors shall not be the basis for a recomputation.

6. If the Executive Secretary to the Board determines that a factor was misapplied and the correction would cause a deviation from the Risk/Severity recommendation, the prisoner shall be granted a re-hearing as soon as practicable thereafter.

7. Use of and deviation from standards. ([NRS 213.10885](#), [213.110](#), [213.140](#), [213.150](#))

1. The standards contained in this emergency regulation, inclusive, may be considered by the Board in determining whether to grant or deny parole, but nothing contained in this emergency regulation shall be construed to restrict the authority of the Board to:
 - (a) Deny parole in any case in which application of the standards indicates that parole should be granted; or
 - (b) Grant parole in any case in which application of the standards indicates that parole should be denied,~ if the decision of the Board is otherwise authorized by the provisions of [chapter](#)

[213](#) of NRS.

2. The Board may deviate from the standards contained in this emergency regulation inclusive, based upon any of the factors or combination thereof identified in Section 4 of this emergency regulation, or any other circumstances the Board deems appropriate.
3. For statistical purposes only, the Board will maintain a written record of any case in which its decision conflicts with the standards.

8. Notice to prisoner of the parole decisions: Recommendations that might improve the possibility of parole at a subsequent hearing when parole is denied (NRS 213.130).

1. Upon making a final decision concerning the parole of the prisoner, the Board shall provide written notice to the prisoner of its decision not later than 10 working days after the meeting and, if parole is denied, specific recommendations of the Board to improve the possibility of granting parole the next time the prisoner is considered for parole, if any.
2. Any recommendations provided by the Board do not create a liberty interest when a prisoner is considered for parole at a subsequent hearing, nor are they intended to create an expectation that parole will be granted.
3. Recommendations made by the Board may include, but are not limited to the following:
 - (a). The prisoner should not to engage in disciplinary misconduct during denial period;
 - (b). The prisoner should participate in programs that address the behaviors that led to incarceration;
 - (c). The prisoner should participate in educational or vocational programs;
 - (d). The prisoner should participate in victim empathy programming; and

- (e). The prisoner should disassociate from involvement with a gang.

9. Considerations regarding the granting of Mandatory Parole (NRS 213.1215)

1. The Board shall consider eligible prisoners for release under the provisions of Mandatory Parole at least 60 days prior to their projected release, or as soon as practicable following the determination that a prisoner is eligible for release under NRS 213.1215.
2. A prisoner may not be released on Mandatory Parole until the Board has approved the release and the Division of Parole and Probation has established a program of the prisoner’s activities during his parole.
3. Prior to making a final decision to grant Mandatory Parole, the Board shall consider whether there is a reasonable probability that the prisoner would be a danger to public safety if released on parole.
4. In considering whether there is a reasonable probability that the prisoner would be a danger to public safety while on parole, the Board shall consider the following:
 - (a). Whether the prisoner is a high risk to re-offend based on a validated risk assessment as specified in section 2 of this emergency regulation;
 - (b). The risk of the prisoner if he has been convicted of a sex offense listed in sub-paragraph 5 of NRS 213.1214;
 - (c). Whether the prisoner has ever made any substantive statements regarding their refusal to comply with the terms of parole, or made threats to harm others;
 - (d). Whether the prisoner has a history of violent convictions;
 - (e). Whether the prisoner has engaged in any assaultive or combative institutional behavior;
 - (f). Whether the prisoner has been convicted of multiple felony offenses of Driving under the Influence;
 - (g). Whether there is any history of supervision failures related to violence or whether additional crimes have been committed while on supervision;
 - (h). Whether the history of criminal conduct of the prisoner has been increasing in severity;
 - (i). Whether the prisoner has demonstrated pro-criminal attitude and behaviors such as active gang involvement or planning escapes or other criminal activity; and
 - (j). Any other factor that would demonstrate that there is a reasonable probability that the prisoner would be a danger to public safety if released on parole.

6. Gender		Medium	0
Male	1	Maximum or Disciplinary Segregation	2
Female	0	Total Dynamic Risk Score	
Total Static Risk Score		Total Score (Static+Dynamic Score)	

Low Risk = 0-4 points
 Medium Risk = 5-10 points
 High Risk = 11+ points or 8 points on Dynamic factors

The risk assessment is based on the static and dynamic factors that are applicable at the time of a parole hearing. A change in status following the hearing that may impact the risk factors shall not be the basis for an appeal for re-computation. A prisoner will only be granted a re-hearing if a factor is misapplied at the time of the hearing, and a correction would cause a deviation from the guideline recommendation.

MANDATORY PAROLE RELEASE GUIDELINE WORKSHEET

Name: _____ ID#: _____ Location: _____ Date: _____

NRS 213.1215 requires the Board to release eligible inmates under Mandatory Parole Release (MPR) unless the Board determines that the prisoner would be a danger to public safety while on parole. The risk level adopted by the Board for the discretionary release of prisoners will be considered when considering the release of a prisoner under MPR.

Prisoners who have been convicted of an offense listed in NRS 213.1214 may not be released on MPR unless they are certified as not being a high risk to re-offend using a standard method of assessment. When considering whether or release a sex offender on Mandatory Parole, the Board will review both the psychosexual risk evaluation and the parole risk assessments and apply the higher risk of the two.

Statistical Risk Level (circle): High Moderate Low
Sex Offender? Yes No If yes, Psych Panel risk (circle): High Moderate Low
Mandatory Parole Recommendation:
Circle one: Grant MPR Deny MPR
If parole is denied, the Board must provide a statement of the reasons why MPR is denied. Please indicate all the reasons why MPR is denied if applicable:

After reviewing the record of the above referenced inmate, the Board finds that there is a reasonable probability that the prisoner would be a danger to public safety if released on parole. This determination is based on the following reasons (indicate the specific information relative to the selected reasons. The specific information provided will be included in the denial statement):

- The prisoner is a high risk to commit a new felony if released (statistical risk assessment).
- The prisoner is a not certified pursuant to NRS 213.1214 (high risk sex offender).
- The prisoner has made substantive statements regarding their refusal to comply with the terms of parole, or made threats to harm others. _____
- The prisoner has a history of violent convictions. _____
- The prisoner has engaged in assaultive or combative institutional behavior.
- The prisoner has been convicted of multiple felony offenses of Driving Under the Influence.
- The prisoner has a history of supervision violations related to violence.
- The prisoner has committed additional crimes while on community supervision.
- The history of the prisoner's criminal conduct has been increasing in severity.
- The prisoner has demonstrated pro-criminal attitude and behaviors such as active gang involvement or planning escapes or other types of criminal activity.
- Other _____
